This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # INTRODUCTION.

The purpose of the civil-service act, as declared in its title, is "to regulate and improve the civil service of the United States." It provides for the appointment of three commissioners, a chief examiner, a secretary, and employees, and makes it the duty of the Commission to aid the President, as he may request, in preparing suitable rules for carrying the act into effect; to make regulations for and control the examinations provided for, and supervise the records of the same, and to make investigations and report upon all matters touching the enforcement of the rules and regulations.

The service classified under the act to which the rules apply is divided into branches, the extent of which is stated in Rule III.[1]

Certain of the places within the classified service are excepted from examination by the civil-service rules, and may be filled, in the discretion of the appointing officers, without examination. All other places may be filled only by competitive examination, promotion, reinstatement, or transfer.

A pamphlet of instructions is issued by the Commission for public information, stating the methods of examination and appointment, the times and places of examinations, and giving specimen examination questions and the rules for marking.

A classification has been adopted by direction of the President for each of the classified departments and commissions, including the Executive Office, similar to the following:

By direction of the President of the United States, and in accordance with the third clause of section 6 of the act entitled "An act to regulate and improve the civil service of the United States," approved January 16, 1883:

*It is ordered,* That the officers and employees in or under this Department included within the provisions of the civil-service law and rules be, and they are hereby, arranged in the following classes:

Class A, all persons receiving an annual salary of less than $720, or a compensation at the rate of less than $720 per annum.

Class B, all persons receiving an annual salary of $720 or more, or a compensation at the rate of $720 or more, but less than $840 per annum.

Class C, all persons receiving an annual salary of $840 or more, or a compensation at the rate of $840 or more, but less than $900 per annum.

Class D, all persons receiving an annual salary of $900 or more, or a compensation at the rate of $900 or more, but less than $1,000 per annum.

Class E, all persons receiving an annual salary of $1,000 or more, or a compensation at the rate of $1,000 or more, but less than $1,200 per annum.

Class 1, all persons receiving an annual salary of $1,200 or more, or a compensation at the rate of $1,200 or more, but less than $1,400 per annum.

Class 2, all persons receiving an annual salary of $1,400 or more, or a compensation at the rate of $1,400 or more, but less than $1,600 per annum.

Class 3, all persons receiving an annual salary of $1,600 or more, or a compensation at the rate of $1,600 or more, but less than $1,800 per annum.

Class 4, all persons receiving an annual salary of $1,800 or more, or a compensation at the rate of $1,800 or more, but less than $2,000 per annum.

Class 5, all persons receiving an annual salary of $2,000 or more, or a compensation at the rate of $2,000 or more, but less than $2,500 per annum.

Class 6, all persons receiving an annual salary of $2,500 or more, or a compensation at the rate of $2,500 or more, per annum.

*It is provided,* That this classification shall not include persons appointed to an office by and with the advice and consent of the Senate, nor persons employed as mere laborers or workmen; but all positions whose occupants are designated as laborers or workmen, and who were, prior to May 6, 1896, and are now, regularly assigned to work of the same grade as that performed by classified employees, shall be included within this classification. Hereafter no person who is appointed as a laborer or workman, without examination under the civil-service rules, shall be assigned to work of the same grade as that performed by classified employees.

*It is also ordered,* That no person shall be admitted into any place not excepted from examination by the civil-service rules, in any of the classes above designated, until he shall have passed an appropriate examination prepared by the United States Civil Service Commission and his eligibility has been certified to this Department by said Commission.

In order that the tables presented in this report may be better understood, the civil-service act and rules, and the method of apportionment, are made a part of this report.

## EMPLOYMENT OF LABOR—NAVY-YARD SERVICE.

### ADOPTION OF NAVY-YARD REGULATIONS.

#### RESOLUTION OF THE COMMISSION.

Whereas the enforcement by the Secretary of the Navy of regulations governing the employment of labor at navy-yards having been shown to be highly useful, and it being important that they should be given stability independent of changes of Administration, and it appearing that the examinations and other tests of fitness provided by these regulations are based on the principles that personal fitness should prevail over recommendation, and that political influence should be disregarded, it is

*Ordered*, That these regulations be, and they are hereby, adopted as the regulations of this Commission under the authority conferred by clause 1 of Rule I.—*Minutes of July 29, 1896, clause 4.*

#### EXECUTIVE ORDER.

The regulations of the Navy Department governing the employment of labor at navy-yards having been adopted by the Civil Service Commission as a regulation of the Commission, July 29, 1896, under the authority conferred by clause 1, Rule I, of the Revised Civil-Service Rules of May 6, 1896, it is hereby ordered that no modification of the existing regulations shall be made without the approval of the Civil Service Commission.

GROVER CLEVELAND.

EXECUTIVE MANSION,
*November 2, 1896.*

# METHOD OF MAKING THE APPORTIONMENT.

The civil-service act requires all *appointments* in the classified Departmental Service at Washington made through examination to be apportioned among the several States and Territories and the District of Columbia upon the basis of population as ascertained at the last preceding census. It has been found impossible to make and maintain such apportionment with mathematical exactness, but it has been equitably maintained with respect to most of the States. A very few of the States and nearly all of the Territories have received relatively an excessive share of appointments as compared with the other States, as will be seen from the following tables. The excess has resulted partly from the necessity of examining and certifying for appointment to places requiring special or technical knowledge or skill such persons as offered themselves after due public notice without regard to their places of legal residence, the necessities of appointments through transfers and various noncompetitive examinations, and the appointment of persons who were entitled to preference under section 1754, Revised Statutes. Persons with the peculiar qualifications needed in the special places have been found relatively in larger numbers in the States near the seat of government than elsewhere. Appointments to places outside Washington are made mostly by districts and are not charged to the apportionment.

Except in the case of eligibles preferred under section 1754, Revised Statutes, the appointment under the clerk-copyist examination at Washington must always be from the State having eligibles which at the time has received the least proportional share of all the appointments. The calculation is made by a card system which shows at a glance the relative order of the States for appointment at any moment. Under this method, in which the Commission has no discretion, the appointments at all times are as nearly equal among the States according to population as it is possible to apportion them. No State at any time has more than a very small excess of appointments over any other State. The supplementary and special examinations to some extent disarrange this procedure. When stenographers, bookkeepers, or other persons having qualifications tested by the supplementary and special examinations are called for, the eligibles standing highest from the whole country must be certified, except those from the few States which at the time have a percentage of appointments greater than the average percentage for all the States taken together. The appointments from these and the noncompetitive registers and of persons preferred under section 1754, Revised Statutes, may therefore fall in a greater or less measure to States not having the least share of appointments. These States therefore receive a less share of the clerk-copyist appointments.

The number of appointments charged to the District of Columbia early became so largely in excess of the number to which it was entitled under the apportionment, that for ten years and more no persons having a legal residence in the District have been examined, except through an entire failure of applicants from elsewhere. The facilities now afforded for convenient examination will, it is hoped, tend to prevent this excess in the future. Forty-six of the appointments received by the District were from noncompetitive examinations, held under the provisions of General Rule III, section 2, now repealed. The pamphlet of instructions to applicants explains in detail the method of certification for appointment.

# STATISTICS OF THE CIVIL SERVICE.

The following is a compilation of statistics, prepared by Mr. Theodore L. De Land for the Civil Service Commission, showing approximately the state of the classified and unclassified parts of the executive civil service of the United States, so arranged as to include positions by Departments, offices, and commissions, with subdivisions by grades, the compilation containing a complete list of all positions, whether classified by compensation, whether appointed by the President solely or by confirmation of the Senate, whether the positions are in the classified service and excepted from examination, whether they are in the unclassified service by reason of their exclusion, whether they are mere laborers and unclassified, or whether they are positions classifiable but not yet classified:

## THE GENERAL REPORT ON THE STATISTICS PERTAINING TO THE EXECUTIVE CIVIL SERVICE CLASSIFICATION UNDER THE RULES OF MAY 6 AND AMENDMENTS THERETO.

UNITED STATES CIVIL SERVICE COMMISSION,
*Washington, D. C., November 13, 1896.*

SIR: I have the honor to report to the Civil Service Commission that I have completed the compilation of the statistics which show approximately an official statement of the number of civil officers of the United States confirmed by the Senate above classification, the number of classified persons by classification, the number of excepted places, the number excluded from classification, the number of laborers or workmen below classification, and the number of positions not yet classified carried on the rolls of the Executive Mansion, the Executive Departments, and the bureaus, offices, and commissions of that service, whether compensated by a fixed salary or otherwise, inside or outside of the District of Columbia, in most cases as the numbers and amounts stood on the average for the last fiscal year, which ended June 30, 1896.

* * * * * * * * * * *

It was not practicable to classify by compensation positions in the navy-yards and naval stations, so far as the work relates to positions classified by the Navy Department, under regulations of that Department which were approved by the Commission and by the President.

* * * * * * * * * * *

Since the tables were submitted by the proper officers they have in many cases been modified by them, and will of necessity be modified more or less hereafter.

Many offices and some Departments did not retain duplicates of their classifications. The opinion was general that the Commission might print the tables as an appendix to its annual report, and thus exhibit the general condition of the executive civil service at the period of the greatest extension of the rules.

There are urgent historical reasons why the tables should be printed; they have been collated and compiled at a great expenditure of time, and in their present condition are inaccessible to all except those with the Commission.

A general review of the tables will be found in the following skeleton:

The fact that Indians now occupy certain subordinate positions carries the positions occupied by them into the excepted list. If in the future it should be desired to fill any of those positions by whites, such positions would by that act go into the competitive list; but if filled by whites and desired to be filled by Indians, that act would carry those places from the competitive to the excepted list so long as filled by Indians. It will thus be noticed that by the operation of the rule the excepted places filled by Indians may be increased to the full limit of certain subordinate employees in the Indian service—at agencies and schools—if it were possible to fill those places with Indians. The rule allows positions in the Indian service other than superintendents, teachers, teachers of industries, kindergartners, and physicians to be filled by Indians.

THE CLASSIFIED EXECUTIVE CIVIL SERVICE.

The following is a general distribution of the positions classified by compensation in the Departmental Service, those appointed by the President and not confirmed by the Senate, and the positions included under the general schedules A and B in the Navy Department at large, now under the special regulations of the Navy Department, which regulations are under the general supervision of the Civil Service Commission, with the President's approval, dated November 2, 1896:

The law and regulations of the Treasury Department provide that enlisted men in the Revenue-Cutter service on the Atlantic, Gulf, and Pacific coasts shall enlist for three years; the enlisted men on the Great Lakes only for the season of navigation.

The clerks to paymasters in the Navy are subject to the navy regulations, and are therefore placed in the excluded class while on shore duty with the paymaster. If they were at sea, they would be considered in the Navy, and therefore not in the executive civil service.

a This man is employed as operator and repairman at Carrizo, Tex.; he furnishes his own mount for repair trips. He also furnishes office quarters, lights, and fuel.

b Operators receiving $420 and $360, while not in the employ of a commercial telegraph company, furnish office rent, fuel, and lights, and do not receive over $300 as personal salary.

c The telegraph operators, generally, are employees of the Western Union Telegraph or other companies, and their services consist of handling messages at connecting points of military and commercial lines without expense to the United States for quarters, fuel, and light. The Signal office has no control over these men further than to see that its business is promptly and properly handled. The messengers and janitors give only part of their time to this service, and in no case receive compensation above $10 per month. The operator receiving $360 and classed as employee of Western Union, exclusive of rent, fuel, and lights, does not receive over $300 personal salary.

d Employed intermittently at Fort Logan, Colo., in connection with ballooning; salary varies from $5 to $15 per month; $60 was expended in the fiscal year ending June 30, 1896.

a The compensation of registers and receivers (as per this statement) is the amount paid for salaries and commissions from April 1, 1895, to March 31, 1896. On account of cancellation fees paid at a few of the minimum offices the register is entitled to a small amount more than the receiver.

b Not paid from Government funds. For convenience of classification these temporary clerks will be averaged and classed as in D.
